

Ethyl Chloride

Nomenclature	Ethyl Chloride,Chloroethane
Formula	CH ₃ CH ₂ Cl
CAS Number	75-00-3
Molecular Weight	64.5 gm/mole
Appearance	Liquefied gas

Specifications

Assay (by G.C)	99.90% Min
Moisture Content	250 ppm w/w Max
Acidity as HCl or Alkalinity as NaOH	10 ppm w/w Max

Uses:

Used for Ethyl Cellulose, Dye Intermediates, Pharmaceutical products and in Petrochemical and Polymer industry.

Other Information

Packing	200 Kgs. & 600 Kgs. Cylinders and in IMO 5 gas tank
UN Number	1037
Storage	Keep away from direct sunlight, heat or flame
Precautions	Toxic and irritating gases are produced in a fire. Highly flammable liquefied gas

Address: 23, 2nd Floor,Maruti Complex,Chhani Road,Vadodara -390002, Gujarat, India.
